

# DEBITKEYS

## DEBIT / CREDIT KEYS

### DEBITKEY Keys

The key is a Smart chip on a key-shaped carrier that can be programmed to perform various functions. Smart chip technology provides a very secure and reliable way to store information. Every location can have a specific ID number, eliminating the threat of fraud. Each key can be custom labeled, pad printed, hot-stamped, or even tooled to display custom logos.

### DebitKey Uses:

- Equipment Activation
- Debit \$ .10 or \$ .25 increments
- Credit (able to bill customers, either by invoice or bill against a credit card)
- Controlled Door Access
